

2019 CCIC GivingTuesday Guide

Thank you for supporting Colorado Children's Immunization Coalition this GivingTuesday.

GivingTuesday is a global day of giving fueled by the power of social media and collaboration. It's a day that brings together a global community around ideals of generosity + collective action.

We encourage you to share your stories over social media on why you give to the cause of vaccines and vaccinations. Below are a variety of social media images to share as well as a print-out that allows you to fill in the reason why you give.

Thank you again for your generous support. Because of your giving CCIC is able to make a direct impact on the health of Colorado children and communities.
