

The S.O.U.P! (Shots Offer Unrivaled Protection) Event: Warming Hearts and Souls

To thank our sponsors and supporters, Immunize Colorado will host the much-anticipated S.O.U.P! event Thursday, **October 13, 2022**, from **6-9 p.m.** at **Space Gallery** in Denver. The evening celebration will raise funds and awareness for immunization while we treat guests to gourmet soup samples and honor Colorado's top immunization champions. S.O.U.P! typically draws about 225 guests, including physicians and other healthcare providers, business leaders, legislators, public health experts, and community advocates. We are thrilled to be hosting this event in person again this year and to be able to recognize the incredible resilience of our Colorado healthcare and public health communities over the past few years.

Why Sponsor Immunize Colorado?

Immunize Colorado's 12th biennial S.O.U.P! event will provide you the opportunity to connect with the Colorado healthcare and business communities to build greater awareness and demonstrate your support of a vital cause: protecting Coloradans from vaccine-preventable diseases. This signature event is an ideal networking opportunity with a substantial audience who appreciates your commitment to our community.

Your investment will assist us in providing programs and services that support increased access to immunizations for all Coloradans, public awareness and information campaigns, educational events for healthcare providers, and policies that serve to keep Colorado communities healthy.

There are several different opportunities to choose from to help you meet your organization's goals. Please use the table below as a basic guide to the types of advertising, public relations, and community engagement opportunities afforded by each event sponsorship level.

About Immunize Colorado

For 31 years, Immunize Colorado has been essential in elevating the role vaccines play in preventing illness and promoting health for all of Colorado. As a statewide 501(c)3 nonprofit, *our mission is to protect Colorado families, schools, and communities from vaccine-preventable diseases.*

We work with healthcare providers, public health departments, businesses, policy makers, and community organizations to fulfill our mission. By focusing on six core program areas – coalition building, community outreach and awareness, provider education, data translation and action, free and low-cost vaccines, and public policy – the coalition leverages the strengths and resources of our diverse members and community partners to maximize our efforts. We do all of this without accepting funding from vaccine manufacturers or distributors.
