

Alliance Dental Provider Trainings

The Alliance developed the *HPV and Oropharyngeal Cancer* training for dental providers and staff, to involve dentistry in the fight against HPV-associated oropharyngeal cancer.

Training Details:

- Trainings are free
- Offered in-person or virtually (CE's available for both options)
- Tailored trainings with customizable duration (typically 60 minutes)
- One AGD PACE CE Credit available through Dental Explorer Network available for live trainings, must complete pre- and post-survey

HPV and Oropharyngeal Cancer Training Objectives:

- Discuss Human Papillomavirus
- Identify key information about the HPV vaccine
- Discuss signs and symptoms
- Visual and Tactile Intraoral Extraoral Evaluation
