

Alliance Health Provider Trainings

The Alliance developed the *Motivational Interviewing (MI) Tips for HPV Conversations* training for medical, dental and public health professionals, as well as individuals in a patient-facing role.

Training Details:

- Trainings are free
- Offered in-person or as a live webinar
- Tailored trainings with customizable duration (typically 30-60 minutes)
- If you are unable to schedule a live training, we offer a recorded version that can be requested using our training request form

Motivational Interviewing (MI) Tips for HPV Conversations Objectives:

- Understand the basics of MI and repeat these principles
- Strengthen your ability to elicit change talk and commitment language
- Learn communication techniques that encourage HPV vaccine acceptance
- Practice newly learned techniques
