

Tdap vaccine requirement for sixth-grade school entry

Colorado law <u>requires</u> students who are 10 or 11 years of age and entering sixth grade to receive a Tdap (tetanus, diphtheria, pertussis) vaccine <u>before</u> the start of the school year.

The <u>Colorado Board of Health Rule</u> aligns with the Centers for Disease Control and Prevention's (CDC) Advisory Committee on Immunization Practices (ACIP) <u>immunization schedule</u>. While Tdap vaccine is typically given at age 11 for students entering sixth grade, it may also be given at 10 years of age. This is <u>allowed by CDC</u>. A Tdap dose given at age 10 will 1) count as a valid adolescent Tdap dose and 2) meet Colorado's sixth grade Tdap school vaccine requirement.

Per Colorado law, prior to school entry, the student's parent/guardian is responsible for submitting a student's school-required vaccine records. If these are not submitted to the school, the student's parent/guardian is responsible for submitting a Certificate of <u>Medical</u> or <u>Nonmedical</u> Exemption in order for their student to attend school. Refer to this <u>CDC web page</u> for definitions of medical contraindications to vaccines.

Immunizations are the best protection against vaccine-preventable diseases. Access the following resources to support children and adolescents in staying current or catching up with their routine vaccines, including Tdap and DTaP.

Routinely timed vaccines:

• <u>Child and adolescent immunization schedule</u> (CDC)

Catch up guidance:

- Children and adolescents 10 through 18 years of age (PDF)
- <u>Children and adolescents who start late or are >1 month behind</u> (CDC)

The Colorado Immunization Branch provides access to a nurse consultant who can address vaccine-related questions. Please call CDPHE at 303-692-2700, Monday - Friday 8:30 a.m. - 4:30 p.m., and ask for the School and Child Care Nurse Consultant who can address your school-required vaccines questions or email <u>cdphe_vacs@state.co.us</u>.
