Quick Facts

In 2021-22, **70,387** K-12 students entered Colorado schools without protection from one or more vaccines.

Colorado has seen a **10% decline** in vaccine doses reported as administered across all pediatric and adolescent routine vaccines when comparing 2022 data to 2019 in the Colorado Immunization Information System (CIIS).

Hospital treatment for vaccine-preventable disease in 2020 and 2021 resulted in a combined **$13 billion** in healthcare charges.

**27,927** Colorado kids were hospitalized or went to an emergency room with vaccine-preventable diseases in 2021.
How are schools in this district doing?

Of the 43 schools in this district, 37% achieve recommended vaccination levels that help ensure community immunity* for all school required vaccines.

This means that 9,523 students in this district attend a school that does not achieve high protection from the diseases prevented by school-required vaccines.

How many students might be excluded in the case of a measles outbreak?

Out of the 137,975 students in this district, 878 might be at risk of exclusion from school in the instance of a measles outbreak because they either have an exemption to the MMR vaccine on file or do not have a record of MMR vaccination.

Average Fully Immunized Rate by Vaccine in this District

**Measles** | **Mumps** | **Rubella** | **Polio** | **Pertussis** | **Varicella**
--- | --- | --- | --- | --- | ---
96% | 96% | 96% | 96% | 95%

The bars above reflect the district’s level of protection by disease, taking into account both community immunity levels and Healthy People 2020 Goals. For more information visit us at ImmunizeColorado.org.

**MMR Vaccination Rates by Kindergarten**

Community Immunity* threshold for measles is 95%, as indicated by the green line.

- Our Lady Of Fatima Catholic School
- Glennon Heights Elementary School
- Evergreen Country Day Preschool
- Fairmount Elementary School
- Mount Carbon Elementary School
- Hutchinson Elementary School
- Rooney Ranch Elementary School
- Stober Elementary School
- Kyffin Elementary School
- West Woods Elementary School
- Van Arsdale Elementary School
- Prospect Valley Elementary School
- Compass Montessori - W
- Green Mountain Elementary School
- Three Creeks K-8
- Kullerstrand Elementary School
- Slater Elementary School
- Vivian Elementary School
- Pennington Elementary School
- Powderhorn Elementary School
- Devinn Elementary School
- Foothills Elementary School
- Wilmore Davis Elementary School
- Stevens Elementary School
- Mountain Phoenix Community School
- Kendallvue Elementary School
- Jeffco’s 21st Century Virtual School
- Rocky Mountain Deaf School

* Community Immunity is achieved when enough people in the community - roughly 95% for a disease like measles - are vaccinated to protect against the spread of disease. Maintaining high vaccine coverage is especially important for those who cannot be vaccinated for medical reasons or those too young to receive vaccines.

Data made possible through HB14-1288 and subsequent rulemaking which requires schools and licensed child care centers to annually report immunization and exemption rates to the Colorado Department of Public Health and Environment (CDPHE).
